(長3 封筒：裏)

The diagram shows the back of a Japanese envelope with a vertical slot for a stamp. The envelope has a triangular flap at the top and bottom. Two circular seals, each containing the character '印' (Seal), are positioned at the top and bottom center of the slot. On the left side of the envelope, there are two vertical columns of text and circles:

- The left column contains the text '差出人名' (Sender's Name) followed by '会社名' (Company Name) in parentheses, and then a vertical line of seven circles.
- The right column contains the text '差出人住所' (Sender's Address) followed by a vertical line of seven circles.
